Camp Basics

WELCOME

Welcome to Acton Academy North Broward in partnership with ESTEAM Learning Labs. Our summer camps are designed for curious kids who learn best by doing—building, creating, experimenting, and collaborating. We believe children thrive when they're given agency, structure, and meaningful projects that encourage creativity, problem-solving, and confidence.

PROGRAM OVERVIEW

Our full-day summer camps blend science, technology, engineering, art, and math through hands-on, project-based learning. Camps are intentionally capped to ensure quality instruction, strong relationships, and a calm, engaging environment.

CAMP DETAILS

Ages 5 - 8

Perfect for our youngest heroes, ages 5-8, Discovery Quest offers a hands-on exploration of Science & Nature, Technology, Engineering, Art, Music, Movement, and more! Each day is filled with STEAM-focused labs, where campers dive into experiments, crafts, and games that spark curiosity and critical thinking. Rotating through activities like Science and Nature, Music and Movement, Arts and Crafts, and LEGO-based Engineering, campers will learn, play, and build friendships. On "Funday Friday," they'll enjoy extra fun with outdoor water play, games, movies, ice cream, and more.

DISCOVERY THEMES

Week 1 (June 15–19): Insect Investigators

Campers explore the fascinating world of bugs and insects through magnifying investigations, creative crafts, and simple science activities inspired by nature.

Week 2 (June 22–26): Pirates & Mermaids

Campers sail into ocean adventures with treasure maps, simple boat-building challenges, and under-the-sea art projects.

Week 3 (June 29–July 3): Safari Rangers

Young rangers explore animals and habitats through crafts, simple engineering builds, and imaginative play inspired by the wild.

Week 4 (July 6–10): Nature Explorers

Campers investigate the natural world with weather, plants, and outdoor-inspired experiments and creations.

Week 5 (July 13–17): Superhero Training Camp

Children design their own superhero identities, complete "training missions," and practice using their strengths to help others.

Week 6 (July 20–24): Carnival Fun & Games

Campers create their own carnival-style games and challenges, then invite friends to play, test, and improve them.

Week 7 (July 27–31): At the Zoo

Kids explore how different animals move, eat, and live, designing simple zoo habitats and creature-inspired builds.

Week 8 (August 3–7): Under the Sea

Campers dive into ocean life with coral reef creations, sea creature stories, and hands-on engineering activities.

Week 9 (August 10–14): The Fun World of Science

Hands-on science all week—classic "wow" experiments in chemistry, physics, and motion designed just for younger learners.

Ages 8 +

Explorers Camps are designed for older campers who are ready for deeper challenges, longer project cycles, and more complex problem-solving. These camps encourage campers to think critically, collaborate with peers, and take ownership of their ideas from concept to completion. Through hands-on projects, campers explore engineering, design, storytelling, and creative innovation while strengthening communication, perseverance, and teamwork skills. Explorers Camps are ideal for students who enjoy building, experimenting, and pushing their thinking further in a supportive, project-based learning environment.

EXPLORERS OFFERINGS

Week 1 (June 15–19): LEGO® Engineering & Coding – Mission Impossible

Campers complete hands-on engineering and coding missions that require strategy, teamwork, and problem-solving.

Week 2 (June 22–26): Video Production – Lights! Camera! Action!

Students plan, film, and edit short videos while learning the basics of storytelling and media production.

Week 3 (June 29–July 3): LEGO® Engineering & Coding – Smart Moves

Campers build and program moving LEGO® models to explore motion, mechanics, and control.

Week 4 (July 6–10): Forensic Science

Young investigators solve mysteries using experiments, clues, and real-world forensic techniques.

Week 5 (July 13–17): LEGO® Robotics – Battle Bots

Campers design and test robotic builds for friendly competitions focused on strategy and engineering.

Week 6 (July 20–24): U-Tubers Unite

Students create short-form videos while learning planning, filming, and responsible content creation.

Week 7 (July 27–31): LEGO® Robotics – Amazing Machines

Campers engineer complex machines using motors, gears, and collaborative design challenges.

Week 8 (August 3–7): LEGO® Cinematic Adventures

Students bring stories to life through LEGO® builds and hands-on stop-motion animation.

Week 9 (August 10–14): LEGO® Engineering & Coding – Inventors Squad

Young inventors design, test, and improve original creations through open-ended engineering challenges.
