

LEGO® MAKER: ANIMAL ENGINEERS

"Animal Engineers" combines a love for animals with engineering fun! Campers will build LEGO® models inspired by animals—like a swinging monkey, a flapping bird, or a crawling insect—and learn how movement, balance, and energy work in the natural world.

Through creative play and hands-on experiments, campers will develop a deeper understanding of mechanical concepts and nature's amazing designs.

Ages 5-8

SAMPLE DAILY SCHEDULE

Morning Launch

Lab 1: Design Lab

Snack & Free Play
